

Kappus

PRIVATE LABEL

House of
extraordinary soaps
since 1848

High Quality

Since 1848, over 154 years, the firm M. Kappus, which has passed through four family generations, produces soaps and various cosmetics in Offenbach near Frankfurt and in Riesa near Dresden.

Today's production program is made up of:

■ translucent soaps ■ toilet soaps ■ cosmetics
■ shampoos ■ bath foam ■ body lotions ■ shaving
cream ■ after shave ■ perfume.

Our goal is to produce high quality items with a reasonable price. Kappus wraps, shrink wraps, or tuck boxes your soaps automatically with modern high speed packaging machines or give them a special touch through individual packaging.

A Private Label department founded in the sixties has grown into one of the most sophisticated and creative service departments for soaps and cosmetics in Europe. Many different shapes, colours and packaging variations of soaps are produced in 5 qualities:

■ translucent vegetable soap ■ vegetable toilet soap
■ syndet soaps and combi bars ■ translucent tallow soap
■ tallow based toilet soap.

Luxury Products

Made in Germany

The small minimum quantity of 25.000 pieces, for most of the shapes, enables even smaller customers to create their own „brand“ or realise a promotion campaign.

- For an extra Euro 500,- a logo can be put on standard soaps.
- For an extra Euro 3.100,- an own mould can be developed.

Request our Kappus catalogue to inspire your ideas for outstanding Private Label products.

The house of extraordinary soaps will be at your disposal with 150 years of soapmaking experience. „What we offer our customers at home and abroad is no standard mass-produced merchandise, but articles appealing to individual tastes.“

Its main customers are the food and specialized trades, department stores, drugstores and pharmacies. Many of the leading cosmetic manufacturers around the world are its Private Label soap clients.

Please ask our privat label department in Offenbach for further information.
